

NEXT GENERATION BURGLAR PROOF TECHNOLOGY FOR ALUMINUM DOORS & WINDOWS

HOME BURGLARY FACTS:

- Homes without security systems are up to 300% more likely to be broken into.
- Most criminals can burglarize a home in less than ten minutes.
- Someone is home during nearly three out of every ten burglaries.
- Nearly 66% of all burglaries are residential (home) break-ins.
- The type of tools used to break in are usually simple, a screwdriver pliers, pries bars and small hammers.
- Almost 30% of burglars enter a home through a poorly locked or unlocked door or window.

Bonus fact: Around 87% of burglaries are considered preventable!

DON'T JEOPARDISE THE SAFETY OF YOUR LOVED ONES!

MINIMISE WEATHER HAZARDS IN YOUR HOME!

O

THE ZEUS TECHNOLOGY

- Offers a total anti-burglar and weatherproof solution for every home or business.
- Internationally patented (in more than 140 countries).
- Available for sliding and casement doors as well as windows.
- Applicable on aluminum and PVC systems.
- Applicable on thermally broken systems.

SECURITY

- Unique technology that locks fully perimetrically. It merges the sash with the frame, creating a solid firm surface.
- Impossible to penetrate or dismantle and invulnerable to unauthorized break-in.
- Officially certified. It has acquired high classification from the Giordano Institute in Italy, never before achieved by similar systems.

HARDWARE & INSTALLATION

- Easy to install.
- Very low cost without compromising quality.
- Immaculately designed and manufactured under the highest standards.

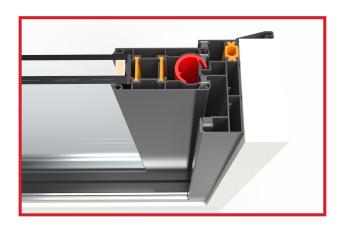

Casement Technology

Sliding Technology

CASEMENT SYSTEM

Burglar proof technology implemented in casement systems locks perimetrically with robust security bars not only in several points but along their whole height and width.

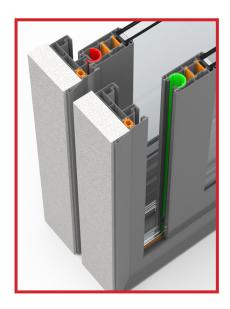

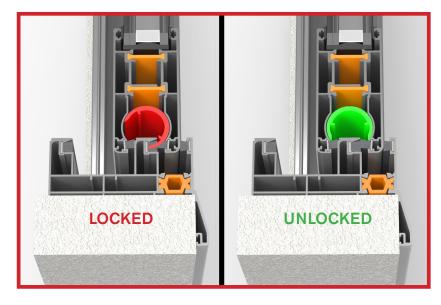

Thanks to the new **specially designed security bar**, the **sliding system** is exempted from any accessories on the stable frame. When locking, the security **bar comes out of the sliding frame** and **entraps the stable frame throughout the height** and not only in several points. Hence **maximun security** and brilliant aesthetic result!

CASEMENT SYSTEM CERTIFICATES

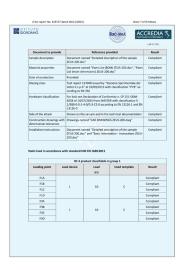

CERTIFIED BY:

RC3

RC4 (for static load)

Certificate for Watertightness Wind Resistance Air Permeability

Burglar resistance test

Burglar resistance test

Burglar resistance test

1 TON hydralic press at 8 different points

Watertightness test

Wind resistance test

Air permeability test

SLIDING SYSTEM CERTIFICATES

CERTIFIED BY:

RC2

Certificate for Watertightness Wind Resistance Air Permeability

Energy Certificate

Burglar resistance test

300 kg hydraulic press pull

300 kg hydraulic press at 8 different points

Watertightness & wind resistance test

50kg dymanic load test

Air permeability test

CURTAIN WALL SYSTEM

- No silicon needed
- Installed from inside the building
 - No cranes needed
 - Maximum security
 - Weatherproof
